Arrggh! Our tubes are clogged!

Because this sucks*, we thought you might like to enter an impromptu competition to win a FREE PRO ACCOUNT!

Just print out this page and colour in the dots. When the site's back up, take a photo of your creation and post it to Flickr, tagged with "flickrcolourcontest".

Team Flickr will pick a winner in the next couple of days, and that lucky duck will get a free year of Pro.

* Seriously, we apologise for the unannounced downtime. We're working as fast as we can to get flickr.com back online. [Details here.](#)

Yelp

Version 6.7.0

May 17, 2013

UPDATE

Between the new season of Arrested Development, a new Daft Punk album, and the potential for a Taco Bell Waffle Taco, there's certainly a lot to be excited about these days. The Yelp Mobile team would like to give you a couple more reasons with these iPhone app updates:

- Browsing through Tips just got a ton easier with better pagination controls and support for side-swiping.
- We also made adding business photos a lot more elegant. Now it's easier to add multiple photos and review all the previous photos you've uploaded for a business.
