## What the hell happened at Activision Blizzard?

*12 months of record-setting financial performance + 800 people laid off = one terrible week*

Team Envy receives \$20 million  
investment

Overwatch League Season Opens With More Hours  
Watched, Lower Average Viewership on Twitch

**Riot's English language broadcast  
team will not be in Korea for most of  
Worlds**

# Money = Growth = Profit?

Growth of esports 2000 - 2010 = more money  
but...

Few additional revenue streams since

More Investment  $\neq$  More Revenue

The GDC logo is positioned at the top center of the slide. It consists of the letters "GDC" in a bold, white, sans-serif font. The letters are set against a red, diamond-shaped background that is part of a larger geometric design. The background of the entire slide is a dark blue with various geometric elements: a large red diamond at the top, a large blue triangle at the bottom, and several thin red lines and small diamond shapes scattered across the surface.

The GDC logo is positioned at the top center of the slide. It features the letters "GDC" in a bold, white, sans-serif font. The letters are set against a red, diamond-shaped background that is part of a larger geometric design. The overall background of the slide is a dark blue with various geometric shapes and lines in red and white, creating a modern and tech-oriented aesthetic.

# GDC

## How did esports get here?

**GAME DEVELOPERS CONFERENCE**

MARCH 18–22, 2019 | #GDC19

# PC Cafe & LAN era - 1990s - 2000

- Get friends together and play
  - Infrequent local events
    - Annual / Bi-annual events
  - Developer hosted events to support titles
    - Few (or no) 3rd party organizers
  - Limited sponsorships
  - Small prizes
  - Very little audience
- Developer value
  - Player value
  - Small team value
  - Small sponsor value

# CPL era - 2001 - 2009

- Structured seasonal tournaments
- Stable 3rd party organizers
- Few professional teams
- Teams supporting travel to events
  - Small player salaries
  - Some top players are full time
- Small viewership and audience
- Growing prize pools
- Regular sponsorships

- Developer value
- Player value
- Team value
- Sponsor value
- Viewer value
- Small organizer value

# Live Streaming era - 2010 - 2015

- Regular online tournaments
- Competitive 3rd party ecosystem
- Developers supporting esports in earnest
- Esports as a stable industry
  - Many full time employees
- Huge viewership
- Stable ecosystem
- Large player salaries
- Enormous prize pools
- Stadium-sized audiences
- Competitive sponsorships
- Developer value
- Player value
- Team value
- Sponsor value
- Viewer value
- Organizer value
- Small investor value

# Franchise era - 2016 - Present

- Angels, VCs, sports franchises investing
- Multiple franchised leagues
- Revenue sharing
- Developer subsidies
- Media rights
- Huge viewership
- Insanely high salaries
- Enormous prize pools
- Stadium-sized audiences
- Regularly sold out arenas
- Competitive sponsorships

- Developer value
- Player value
- Team value
- Sponsor value
- Viewer value
- Organizer value
- Small investor value

The GDC logo is centered at the top of the slide. It consists of the letters "GDC" in a bold, white, sans-serif font. The letters are positioned over a large, solid red triangle that points downwards. The background of the entire slide is a dark blue with several thin, light blue lines forming a grid-like pattern. There are also several small, light blue diamond shapes scattered across the slide.

GDC

There is value, but how much?

**GAME DEVELOPERS CONFERENCE**

MARCH 18–22, 2019 | #GDC19

# Organizers

## Early Adopters

## Second Wave

## Current Orgs

# Organizers

- Early trailblazers gone due to either financial instability or mismanagement
- 2010s brought healthy open competition
- Reached good equilibrium point at present, but bordering on oversaturation
- A few in the black, but largely organizations operating in red or at parity

# Teams

## Early Adopters

## Second Wave

## Current Orgs

# Teams

- Old organizations disband with increasing frequency
- New organizations popping up and either depend on VCs or focus on smaller titles
- Most teams operate in the red, with few managing to make any significant profits
- Most team revenue is in low \$1Ms or below, some are in \$10Ms

# Sponsors

## Early Adopters

NVIDIA

## Second Wave

## Current Orgs

OMEN by hp

# Sponsors

- About 20 endemic sponsors support 90% of the scene endemic sponsorship revenue
- Most endemic sponsors have esports sponsorship budgets below \$10M annually
- Few non-endemics are entering the scene (though this is growing with franchising and stability)
- Team sponsorship contracts range from \$50K - \$2.0M per year
- League sponsorships range from about \$100K - \$3M per year (varies wildly)

# Developers

## Early Adopters

## Second Wave

## Current Orgs

# Developers

- Loss leader for nearly all developers
- Riot Games - Downsizing costs and operations
- Valve - Outsources all tournament operations to 3rd parties
- Blizzard - Cancelling and downsizing competitive scenes despite huge viewership

# What is preventing proper ROI?

**GAME DEVELOPERS CONFERENCE**

MARCH 18–22, 2019 | #GDC19

# Next Steps

## **Player salaries at unsustainable levels**

Need to be at levels sustainable according to team revenue, not investments

## **Not enough non-endemic sponsorships**

Need to bring in more non-endemics and demonstrate value

## **Sponsorship ROI uncertain**

Need transparent, unified standards for viewership tracking

## **Too few team revenue streams**

Need innovation for how else to monetize team brands

## **Organizations focusing on "bigger" and not smarter**

Need to realize older models for events are not always correct, most profitable, or scalable

# Takeaways

Have realistic expectations

Start your scale from the bottom

Understand the mechanics for revenue

Collaborate with others in the space

The GDC logo is centered at the top of the slide. It consists of the letters "GDC" in a bold, white, sans-serif font. The letters are set against a red, diamond-shaped background that is part of a larger geometric pattern. The background of the entire slide is a dark blue with various geometric shapes, including lines and diamonds, in a lighter blue and red color scheme.
