

# How to Release 15 Skins Every Month

Without Losing Your Mind

# Introduction!

Kellen Malone  
Audio Lead - SMITE

Previous work:

Paladins  
Realm Royale  
DKO  
Rogue Company  
Cosmo's Quickstop  
Jurassic World Revealed  
Jack Ryan: November Morning  
Casino games

# Introduction!

Pablo Schwilden Diaz  
CTO - Demute

Previous work:

Paladins  
Divine Knock Out  
Rogue Company

Outcast 2  
Century : Age of Ashes  
Warhammer 40K : SBT  
...

# SMITE Overview

- Third-person action game
- 125 Gods
- Skin monetization
  - New voice packs and Sfx
- 3 week production cycle

# Skins!

# Skins!

# How do we manage this much content?

## Pre-Production

Planning meetings  
Brainstorming  
sessions  
Strategically  
prioritizing content  
Documentation

## Production

- Utilizing in-house and outsourced design and implementation
- First/second-pass and final due dates
- Automation tools
- Producers!

# Pre-Production

- General idea of Scope
- Potential issues (are you turning a dog into a bunny? Will this require additional prog support?)
- Brainstorming
- Discuss which sounds are key to the character that can't be changed
- Gauge which skins to outsource and which to keep internally

# How to Prioritize Content

High Profile Events  
Player interest  
Complexity

# In-house and Outsourcing

## In-house

- Faster and more frequent iteration
- Higher visibility on sound design progress and direction
- Internal designers have a deeper understanding of the project
- Internal designers generally have a deeper sense of responsibility to the project
- Limitations on bandwidth

## Outsourcing

- Contractors are generally able to take on more work
- Wide range of skills
- Generally unfamiliar with the project
- Difficult to get exactly what you envision

# What Sound Designers Need

- Character background
- Notes from Design team
- General audio direction
- List of assets
- Sounds to not touch
- Clear due date expectations
- Render settings

# What Technical Sound Designers Need

- Character background
- Package names
- Shortcut commands
- Implementation and testing steps
- Timeline expectations
  - When to expect Sfx/VO
  - Clear due dates

# Multi-Tiered Due Dates

- First-pass due date
- First, second, and final pass review sessions (internal)
- Early final due dates

# What is designing audio for Smite?

- 10 to 15 skins to redesign with each 60 to 200 sfx
- 10 to 15 voices to clean and post-process
- Trailers, cutscenes, reworks
- Extra emotes or new objects

Every month!

# Our goals

- Create catchy and interesting content every month
- Ensure consistency for the players
- Deliver on time
- Keep the team happy
- Not lose our minds

# How to lose your mind

- Boring repetitive tasks
- Endless back and forth
- Lack of creative input
- Too tight deadlines
- No evolution

# Boring repetitive tasks → Automation

- Session Templates for VO and Sound Design
- Automatic Import and Export

Render

# Endless back and forth → Close collaboration

- Double check of all material and briefs
- Easy access to any sound designer and producer
- Reaper sessions as part of the delivery

# Lack of creative input → Working as a team

- Sound moodboards and affinity
- Rotate sound designers
- Internal peer reviews
- Fostering boldness and creativity

# Too tight deadlines → Planning ahead

- Monthly workload assessments
- Gantt charts with detailed breakdown
- Investing in talent

# No evolution

## → Post-mortems and feedback

- Internal and Hi-Rez feedback and reviews
- “Post-mortems” regularly
- Give a voice to your team
- Go to GDC?

# Batch Implementation Automation Tools

- Look for frequently repeated tasks in your pipeline and work with your programmers to develop tools
- Before automation tools ~ 1 hour
- After automation tools ~ 5 minutes
- Total savings per patch ~ 10 hours of work
- Quality checks still needed

# Empowering Production!

- Emails
- SOW
- Info dumps (sound design/implementation needs and guidelines)
- Asset list

# Team and Project Management Tips

- Be flexible with your workflow
- Allow time for polish, bugs, and life events
- Keep your team healthy
- Maintain a positive relationship with your outsourcers
- Encourage career growth and personal responsibility
- Be excited about players enjoying the content
- Celebrate the team's wins

# Bringing this all together

- Early planning meetings
- Documentation
- Strategically prioritize content
- Utilize in-house and outsource design and implementation
- Multi-tier due dates
- Automation tools
- Your Producer probably needs a raise

# Q&A
