- 
- ❖ Conceptually exciting
 - ❖ Hard to embrace

- 
- A background image showing a large crowd of people in historical attire, possibly during a public execution or a protest. A large, flaming effigy is suspended from a tall wooden pole in the foreground. In the background, there are stone buildings with arches and a dome, suggesting a European city from the 17th or 18th century. The scene is hazy and atmospheric.
