What we will talk about...

Constraints and Caveats

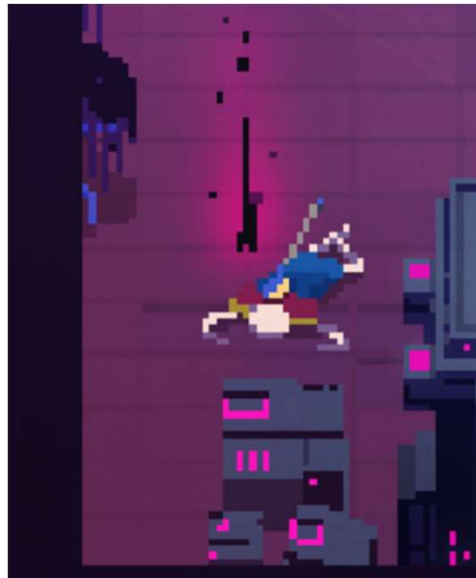

- Focus on action combat games

Constraints and Caveats

- Spoilers!

Constraints and Caveats

- Collaboration!

My Fears

@Wertle

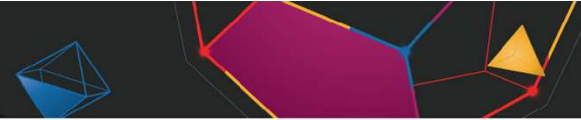

UBM

My Fears

- Thinking in z-space

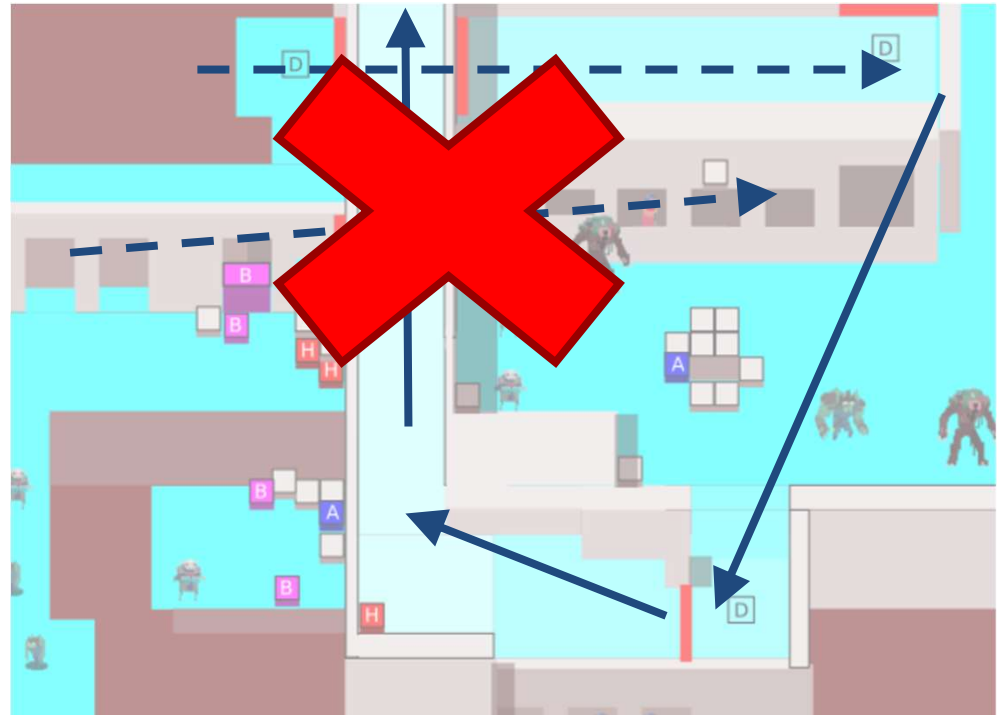

My Fears

- Thinking in z-space
- Mitigating awareness

My Fears

- Thinking in z-space
- Mitigating awareness
- Reliance on verticality

GDC

GAME DEVELOPERS CONFERENCE®

| FEB 27-MAR 3, 2017 | EXPO: MAR 1-3, 2017 #GDC17

Processes and Principles that DID Transfer

@Wertle

UBM

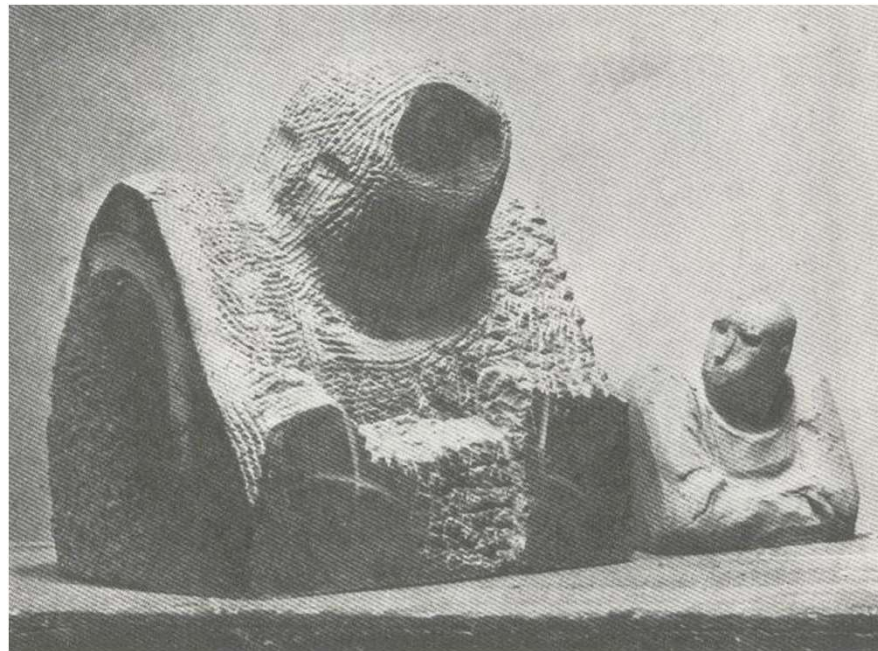

1. Initial Construction Process

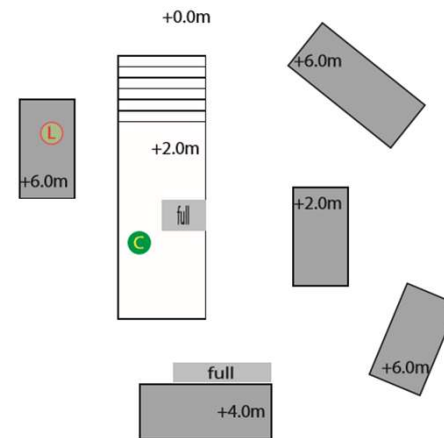

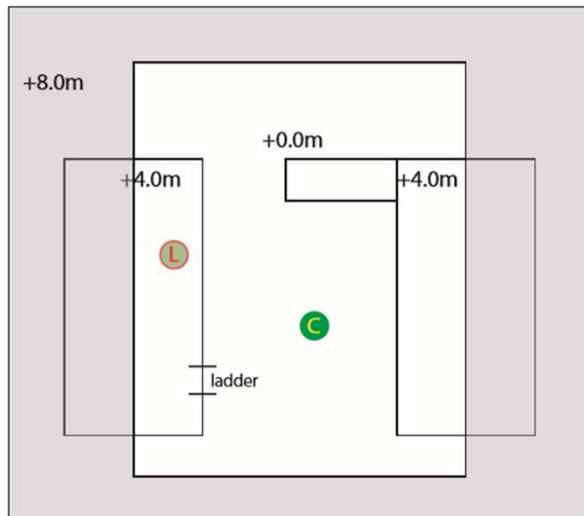

Initial Construction Process

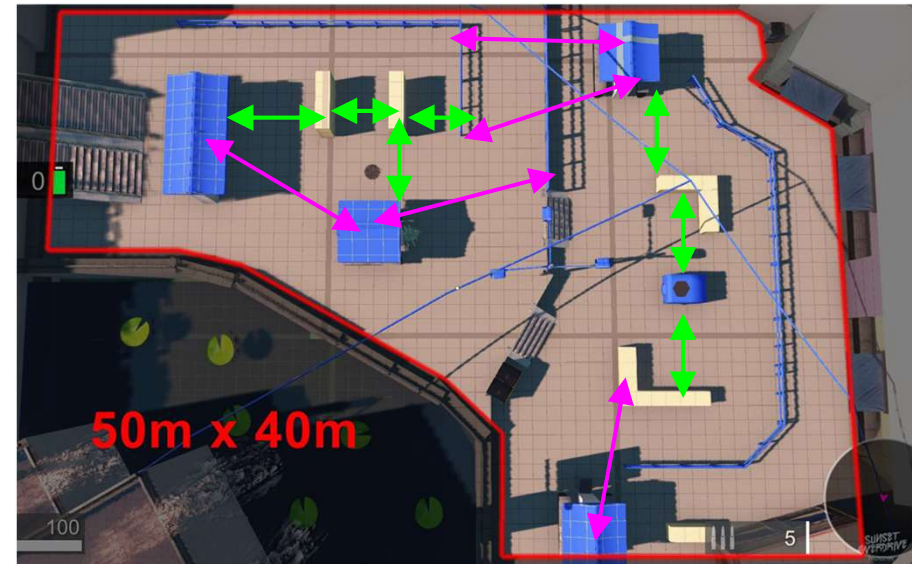

Metrics as Initial Constraints

Metrics as Initial Constraints

- Min corridor width for enemies
- Min corridor width for player
- Jump heights/distances
- etc...

Example: Sunset Overdrive

GDC

GAME DEVELOPERS CONFERENCE®

| FEB 27-MAR 3, 2017 | EXPO: MAR 1-3, 2017 #GDC17

@Wertle

Processes and Principles that DID Transfer

1. Initial Construction Process

- a. Using established metrics as constraints

2. Player Defense Shapes the Level

Drew Murray

“Defensive capability of the player in shooters is more important to level design than offensive power”

GDC

GAME DEVELOPERS CONFERENCE®

| FEB 27-MAR 3, 2017 | EXPO: MAR 1-3, 2017 #GDC17

@Wertle

UBM

Appealing to Survival Instincts

“Emotional Level Design through Survival Instincts”

Prospect and Refuge Space

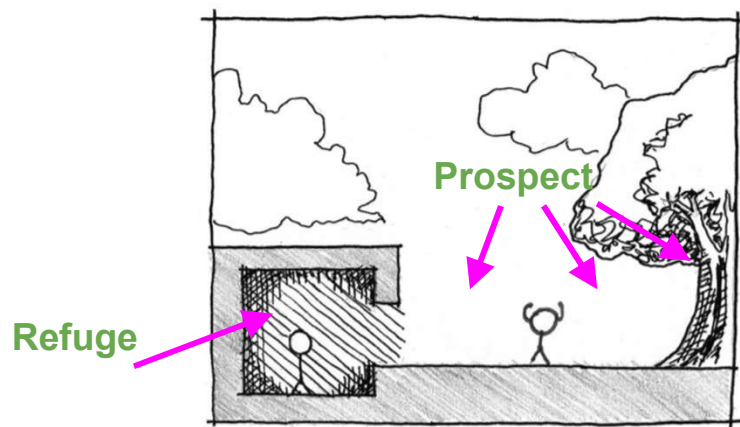

FIGURE 5.6 Refuge spaces provide protection from external dangers and a place from which to plan how to move forward.

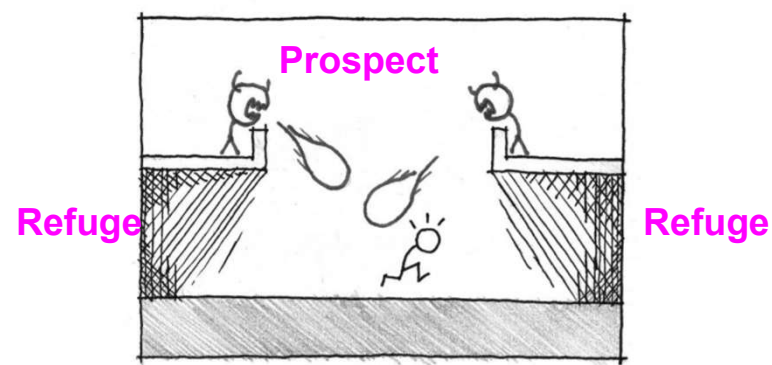

FIGURE 5.8 Refuge-prospect-secondary refuge alternations can create interesting gameplay scenarios.

Example: Resistance 3

Conclusion

@Wertle

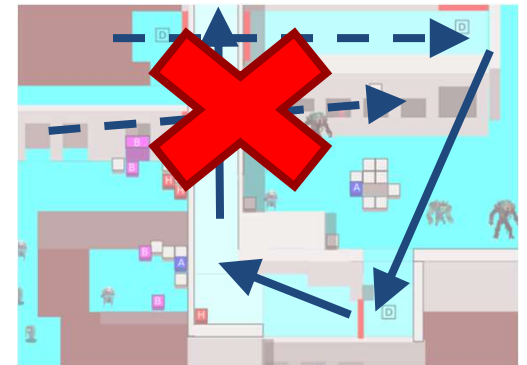

UBM

Conclusion

- Fears: not an issue

Processes and Principles that DID Transfer

1. Initial Construction Process

- a. Using established metrics as constraints

2. Player Defense Shapes the Level

- a. Prospect and Refuge Space

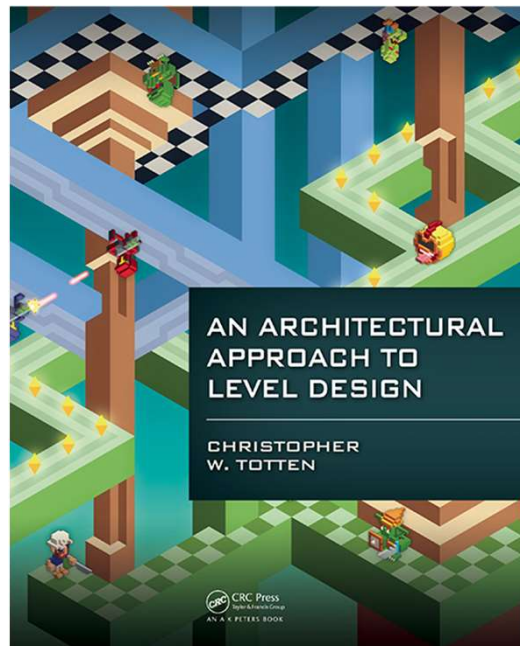

3. Using Space to Control Combat Pacing

- a. Isolating Combat/Denying Refuge Space

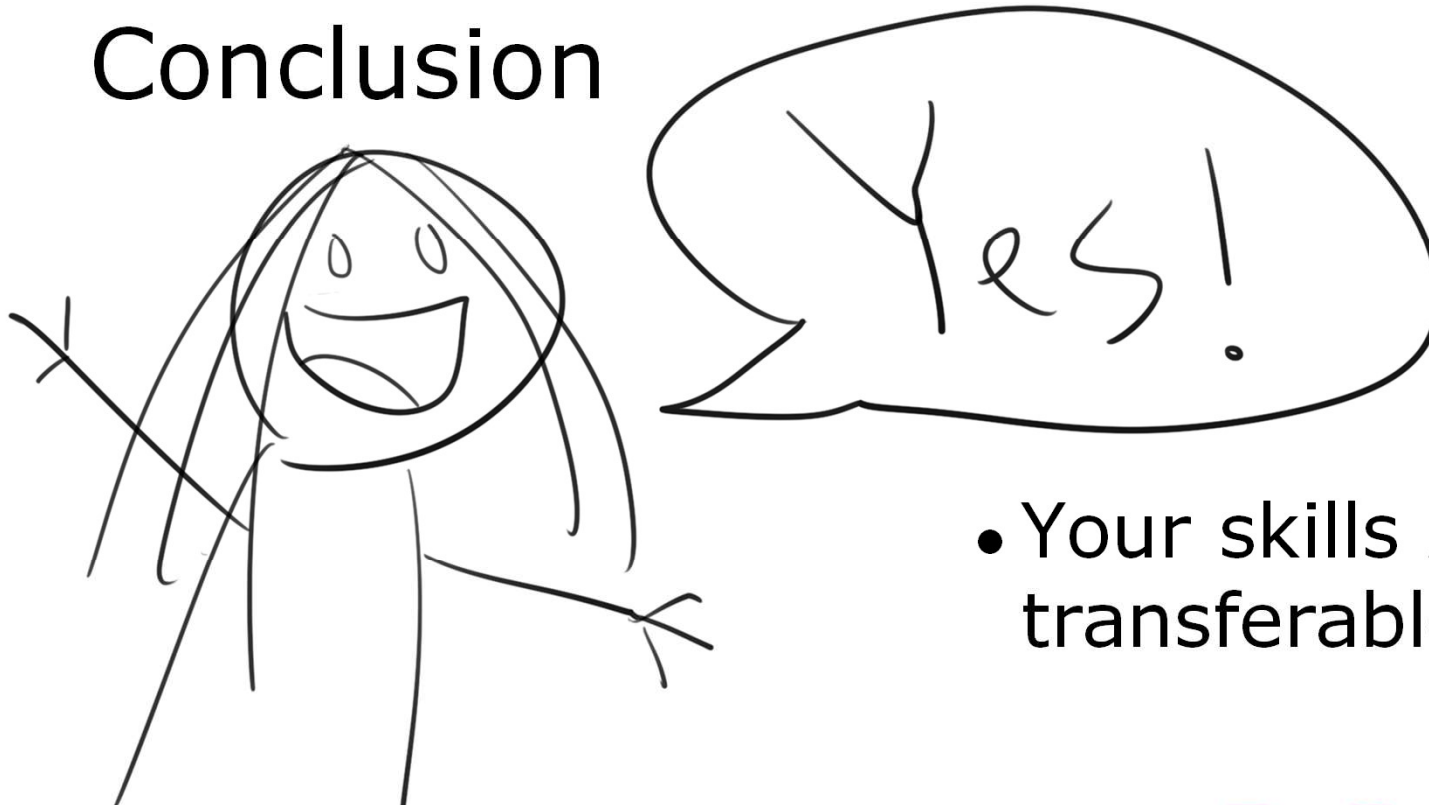

Other Carry-overs

Conclusion

- Your skills ARE transferable!

Thank you
