Ubisoft BIODEX - Original template

By answering this form, you'll be setting up your own Biodex.

The biodex is a form with questions on topics like **Communication, Feedback & Collaboration and Work.** Fill in your preferences and share it with your team, as a personal user manual, to show them how you'd work most comfortably and efficiently. The biodex is a tool for understanding and expressing recommendations. It can be used as support for constructive dialogue whenever preferences don't match.

The survey has 4 pages and will take approximately 15 to 20 minutes to complete.
